REAL WORLD EXAMPLES
REAL WORLD EXAMPLES

Upham’s Corner Health Center
April 24 at 11:30 AM

With social distancing and reduced PACE center census, our PACE Nutrition Manager, Emily Schilling hosted a “virtual cooking group” from her kitchen, that was broadcasted in the PACE centers: All about pancakes and how to incorporate them into a balanced diet!
REAL WORLD EXAMPLES

RACHELLE MALLIK
What to Expect from Virtual Nutrition Counseling

The Food Therapist is a virtual practice with video consultations via Healthie, a HIPAA-compliant, secure online portal. This convenient way of meeting with your dietitian called “telehealth” saves time and money. No more traveling to and from appointments; no more paying for parking, transportation or a babysitter for your little ones. We can chat on your lunch break, while you're sitting on your couch at home, or even while you're taking a walk! Plus you can stay connected and feel supported between appointments via secure messaging.

Healthie also allows you to schedule your next appointment, keep a photo food journal, track metrics (weight, waist circumference, blood pressure, etc.), and upload relevant health records and lab reports from your physician to help us design nutrition recommendations specific to your particular health needs and conditions. All this can be done on your computer or phone via a free app.
Weis Markets has formed a partnership with New York-based online telehealth platform Healthie. The platform enables consumers to consult via video chat with a local Weis Markets registered dietitian on health conditions or nutritional topics. These include type 2 diabetes, high blood pressure/cholesterol, celiac disease, weight control, mindful eating, shopping and cooking on a budget, kid-friendly recipes, plant-based cooking, and basic cooking skills.

FREE Zoom Tutorial Class Designed Just For Seniors!

Join us on Wednesday, May 6th at 10:00 AM on a Zoom meeting. This class is free and will teach seniors how to navigate the features of Zoom. The class will include the basics:

Where is the microphone / mute button?

Where is the video button?

Where is the "chat" button?

How can I see who is talking?

How can I see everyone on the call?

How do I change my screen name?

And so much more!
What percentage of older adults use the internet?

a. ~10% (1/8)
b. ~25% (1/4)
c. ~50% (1/2)
d. ~65% (2/3)
TECHNOLOGY AND OLDER ADULTS

• Older adults are more digitally connected than ever

• The digital divide
  • Highest vs. lowest rates of technology adoption
    – “Younger” vs. “Older”
    – More affluent vs. less affluent
    – Higher education vs. lower levels of education

Roughly four-in-ten seniors are smartphone owners.

% of U.S. adults ages 65 and older who say they own the following:
